

Introduction

Hello, I am PITHANI R DURGA PRASAD from Andhrapradesh. I have completed Bsc. computer science from Adikavi Nannaya University In 2019.

I have been working as Admin Executive in vigilance in Indigo Airlines for the last two and half years. My job maintains the reduce expenses in transport department.

I also have knowledge in the C and HTML and computer hardwearing.

My hobbies are doing Yoga and cooking, traveling new places watching movies lesioning music.

my short-term goal is to become a Java developer in a reputed company and my long-term goal is I need to start a small bussiness.

Why this course: -

I chose Java Developer because it'll lead to a career. It is a very Huge demand course, and I feel it will help me with my practical coding & analytical skills. And I am interested in Java developer. Also, it gives me the opportunity to Work for MNC companies. In every ware in the world (public sector and private sector) they make life simplifier and easier to use technology like inter net mobiles and application but its behand more developers works like c,c++,java ,python, so this is the reason I chouse the Java full stack course. Why edyoda means its teaches from basics briefly and give more opportunities.
